# BRITISH <br> EC <br> aemeral 

## Description:

Enclosures are typically used as an extension to an existing consumer unit but can also be used in isolation. Typical applications include house and loft extensions, garages, sheds, workshops or for showers.
This range of all metal enclosures are manufactured from steel and are compliant with the 17th Edition Wiring
Regulations, Amendment 3. Enclosure kits are supplied complete with devices, DIN rail, neutral cable, neutral and earth terminals and a busbar.
Cover blanks are supplied to allow the installation of single pole RCBOs or single pole SPDs.
M20 knockouts can be drilled to M32 if required with a range of cable glands and grommet kits also available to maintain IP ratings and Amendment 3 compliance.
