

Midsummer Energy is proud to announce its latest range of flexible solar panels. The FLEXi SUN range of solar panels utilise Sunpower solar cells and back contact technology ensuring a 30% increase in power output over other flexible solar panels. These world leading solar panels are as efficient as they are versatile. The ultra low profile and flexibility make them ideal for curved substrates or anybody looking for a discrete solar solution.

Module	Power	Module Size (mm)	Cell Power	Cell Conversion	Voc	Nominal Voltage (V)	Short Circuit Current (A)	Nominal Current (A)	Black/White Backing Sheet
FLXiSUN50	50W	560 x 580	3.12	20.41%	20.8	17.6	3.07	2.84	Black/White
FLXiSUN100	100W	560 x 1155	3.12	20.41%	20.8	17.6	6.14	5.68	Black/White
FLXiSUN130	130W	560 x 1540	2.95	19.30	28.6	24.2	5.8	5.37	Black/White
